SUMMARY

BS Computer Science student (CGPA 3.58/4.00) with hands-on React.js frontend experience and a government-certified MERN training background. Built and deployed production-ready UIs including an AI-powered web application. Completed 3 months real-world frontend training at CodesVista. Seeking a frontend internship to apply clean UI code and user-focused thinking to real products.

TECHNICAL SKILLS

Core Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Design

Build & State: Vite, Redux, React Hooks, Component Architecture

API & Tools: RESTful APIs, Git, GitHub, Vercel | Supporting: Node.js, Express.js, MongoDB

PROJECTS

Smart Resume AI | smart-resume-ai-eta.vercel.app

- Built React frontend for an AI-powered resume analysis tool used by HR professionals to shortlist candidates
- Integrated REST APIs for AI analysis; managed async data flow and dynamic state with React hooks
- Implemented responsive, accessible UI with Tailwind CSS; deployed live on Vercel

Portfolio Website | portfolio-website-q9wp.vercel.app

- Designed and built from scratch using React and Tailwind CSS with mobile-first responsive layouts
- Showcases component reuse, clean folder structure, and production deployment via Vercel

Weather Web App | <https://weather-app-lyart-tau-75.vercel.app/>

Built a responsive weather application using vanilla JavaScript and the OpenWeatherMap API. Features real-time weather data including temperature, humidity, wind speed, visibility, pressure, and sunrise/sunset times for any city worldwide.

EXPERIENCE

Frontend Development Trainee — CodesVista

- Completed intensive real-world frontend training covering React, HTML5, CSS3, and JavaScript
- Built responsive UI components and applied professional code-review and component-based architecture workflows

MERN Stack Trainee — NAVTTC — Summer of Code, Islamabad

Apr 2025 – Jul 2025

- Government-funded programme; focused on React component development and REST API integration from the frontend side
- Built and deployed full-stack applications, deepening understanding of frontend context within larger systems

EDUCATION

BS Computer Science (BSCS) — Thal University, Bhakkar

Sep 2022 – May 2026

CGPA: 3.57 / 4.00 |
